Pietro Mascadri

Training Manager at LOVATO Electric SpA
Bergamo

Summary

My primary responsibility is managing the design and development of technical training courses addressed to Italian and foreign customers. I'm a collaborative, patient and creative person. I love to help companies to develop an education market. In my professional career I always try to combine technical staff to communication and training needs. That's why I hold two university degrees: the first in Telecommunications Engineering from Polytechnic of Milan, as well as a degree in Psychology from University of Bergamo.

Experience

LOVATO Electric SpA
Global Training Manager
June 2015 - Present (6 years 10 months)
Gorle (BG)

My primary responsibility is managing the design and development of technical training courses for Lovato addressed to world wide customers. The other tasks are: handle webinars, define training programs for the company sales force, create training tools and so on.

Politecnico di Milano
Tutor
November 2015 - Present (6 years 5 months)
Supplementary teaching for tutoring. Course "AUTOMATION SYSTEMS AND INDUSTRIAL COMMUNICATION".

Gewiss Professional
Education market developer
February 2006 - May 2015 (9 years 4 months)
Cenate Sotto (BG)

As head of the Education of Gewiss SpA I managed and maintained courses for teachers of technical colleges and universities. I was also the project leader of "Un progetto di classe", a national competition in electric plants design.
